**CONFIRMATION OF THE APPOINTMENT OF NGT CONSULTING BY MOKGOPE CONSULTING TO
MANAGE VISUAL IMPACTS ON HERITAGE RESOURCES IDENTIFIED IN NORTHERN CAPE AS PART OF
PERSEUS-KRONOS 765KV TRANSMISSION POWER LINE AND SUBSTATIONS UPGRADES PROJECT**

This letter serves as a confirmation that NGT Consulting (Pty) (*hereafter* referred to as NGT Consulting) Ltd has been appointed by Mokgope Consulting CC to manage visual impacts on heritage resources identified in the Northern Cape Province as part of the proposed “Perseus-Kronos 765kv Transmission Power Line and Substations Upgrades” project which traverses the Northern Cape Province. This is with effect from May 2016.

The visual impact study will guarantee and ensure that heritage resources are fully managed and protected from the protected powerline at Deviation 1A (Perseus-Kronos Line). It will set guidelines on how visual impacts should be minimised to protect the aesthetic and physical impacts to the identified heritage resources.

We also look forward to your cooperation and/or assistance for a successful management of the above mentioned project.

Nurture, Grow, Treasure

Yours sincerely

Nkosinathi Tomose, Managing Direct
