<b>Item No</b>	<b>Item Description</b>	<b>Response / Comment</b>
1.	<b>JA:</b> Welcome and Introduction	
2.	<b>JA:</b> Briefed the attendee on the background of the project.	
3.	<p><b><u>DISCUSSION</u></b></p> <p><b>FB:</b> Outlining his property boundary on the map.</p> <p><b>FB:</b> My main concern is my little piece of farm here (pointing on the map) and that is where the proposed line crosses.</p> <p><b>LM:</b> What farming activities take place on your farm, and where are the buildings?</p> <p><b>FB:</b> Therefore I would like the line to move as far as possible from the area where the cattle graze and occupy the land. That part of the farm areas is the most valuable.</p>	<p><b>FB:</b> Cattle farming (he gives a description of his farm showing on the map)</p> <p><b>LM:</b> Even though it shows this 2km corridor, Eskom is only looking for 80m width servitude. The negotiator will be present in the following phase’s meeting (EIA phase) and you will have the opportunity to discuss your concerns.</p>

**FB:** The problem is the roads that pass through my farm. My camps have been separated due to these roads. I only have a 1000ha undisturbed land. If Eskom builds the line, then I won't be able to use those existing camps. Hence I request for the line to be moved as far away as possible to this area (showing on the map).

**JA:** Your concerns have been noted, thank you.
