Dear all,

Thank you for attending the public meeting on 29th May 2013

We would like to draw your attention that these minutes were drawn from notes taken from the Public Meeting; please provide corrections / additions if applicable.

We would like to advise that while utmost care was taken to record your comments accurately and faithfully, there may be some discrepancies between what has been written in the minutes that follow and what was actually said. We apologise for this and request that you contact us should you wish to have something changed.

Many thanks for your participation at the meeting, as well as for your understanding regarding the minutes.

Regards

A handwritten signature in black ink, appearing to read "Judith Alford".

**Proposed “Helios-Aries” and “Aries-Kronos” 765kV Transmission Power line & Substations Upgrade, Northern Cape Province
DEA Ref: 14/12/16/3/3/2/441 and DEA Ref: 14/12/16/3/3/2/440**

Meeting with I&APs held at 10h00 on 29th May 2013 at Kai Garib Local Municipality, Kenhardt

Attendees:

Judith	Alford	JA	Mokgope Consulting
Kgwathetji	Matemane	KM	Mokgope Consulting
Bruce	Sebolai	BS	Mokgope Consulting
Lerato	Mokgwathheng	LM	Eskom
Carin	Nel	CN	I&AP
GJ	van Wyk	GJ	I&AP
HR	Kruger	HR	I&AP
AS	Mans	AS	I&AP
Mr	Jasper	Mr J	I&AP
JAM	Kruger	JAM	I&AP

Item No	Item Description	Response / Comment
1.	JA: Welcome and Introduction	
2.	JA: Briefed the attendees on the background of the project and the process of the EIA.	
3.	<p><u>DISCUSSION</u> Mr J: For your attention; one of the alternative lines is crossing Alkantpan activities which comprise ammunition explosions. Therefore it is regarded as no-go area including power lines. All Attendees: They gathered around the table where the maps were</p>	<p>JA: Thank you for raising the issue. Please may you identify this area on the map?</p>

displayed. The open discussion was focused around the map. They identified their farms and their neighbouring farms.

The Alkantpan area was outlined on the map as a danger zone.

Landowners also identified a heritage sited comprising rock gravings, which was outlined on the map.

I&AP¹: Why can't you upgrade the existing line?

LM: We cannot upgrade the 400kV line because it would not be possible to transmit the level of power required. Therefore a new 765KV power line needs to be constructed.

I&AP: Can't I tap directly from the 765kV into my farm?

LM: It is not possible to tap that amount of power directly to your farm. It would need to be brought down to a lower voltage level (132kV and lower) and distributed to households either by Eskom or the municipality.

4. Meeting declared closed.

¹ Please note: An unknown attendee is replaced by "I&AP". We could not identify the exact person who stated the comment.
